

Niche Finder

A three minute quiz that gives an emerging creator a clear, paid content direction, and gives Xperiia a warm, qualified lead at the end of it.

— 01 OVERVIEW

What Niche Finder is

A self contained web tool that answers the question that stalls most creators before they start: which niche is actually right for me.

Instead of a personality gimmick, it reads real signals. What someone is drawn to, what they are good at, how they want to create, and how much they want to earn. It then scores every niche in its library against those signals and returns the three that fit best.

Each result is more than a label. It comes with why that niche pays, the formats that tend to work, the platforms to post on, and three specific posts to start with. Just before the result, the tool shows an honest earning potential chart across niches, with a clear note that audience size and consistency move income more than the niche label itself. That honesty is deliberate. It builds trust at the exact moment a creator is deciding who to listen to.

The tool sits on a real backend. Every completed quiz is saved to a private database and surfaced in a password protected dashboard, so the team behind it can see who took it, what they want, and where they are stuck.

01

 Xperiia / Niche Finder

PRODUCT OVERVIEW

Answer seven short questions

Interests, strengths, format, and money goal. About three minutes, no account needed.

02

See the honest money picture

An earning index across niches, with a plain note that consistency beats niche choice.

03

Get three ranked niches

A best fit plus two backups, each with formats, platforms, and starter posts.

 Xperiia / Niche Finder

Find the niche that actually fits you.

Most creators quit because they picked a niche that looked good, not one that suited them. This finder maps what you love, what you are good at and how much you want to earn, then points you at three that make sense.

Start the finder →

• About 3 minutes, 7 short questions

01 Built on real signals

Your interests, strengths and goals, not a personality gimmick.

The opening screen. Honest framing from the first line, built to be finished, not abandoned.

What it produces, and where it fits

THE USER WALKS AWAY WITH

- A primary niche matched to them, with a clear fit score
- Two strong backup niches to mix in or pivot to
- Formats, platforms, and three starter posts for each
- An honest view of how niches compare on earning potential

XPERIIA GETS

- A lead with real context: goal, struggle, follower range, top niches
- A branded, interactive proof of AI native execution that people finish
- A natural bridge into a strategy call, booked from inside the result

Where it fits

- A lead magnet on the Xperiia site and across social channels
- An icebreaker and qualifier ahead of discovery calls
- A campaign asset for creator economy and personal brand clients
- A reusable template the team can re skin for other niches and verticals

— YOUR MATCHES ARE IN

Three niches built for you, Riya.

Ranked by how well they fit your interests, strengths and goals. Start with the first one. The other two are strong backups or ways to mix things up later.

BEST PLATFORM

YouTube

The result. Three ranked niches, each with why it pays, formats, platforms, and three posts to start with, ending in a clear call to book.

— 03 BENEFITS AND VALUE PROPOSITION

Value on both sides

A genuinely useful tool for the creator is what makes it a genuinely effective tool for Xperiia. The two are not in tension, they depend on each other.

FOR THE CREATOR

- Clarity in three minutes, not three weeks of second guessing
- Honesty about money, shown up front rather than buried
- A plan they can act on the same day
- No account, no friction, works on a phone

FOR XPERIIA

- Top of funnel that earns attention and trust, not just clicks
- Leads that arrive already segmented by goal and pain
- A living proof of the agency's AI native, outcome first positioning
- Full ownership of the asset and the data, nothing rented

— 04 BENCHMARKING WITH EXISTING SOLUTIONS

How it compares

The point is not that other formats are useless. It is that none of them combine personalised scoring, honest data, an actionable plan, and owned lead capture in one branded place.

Personalised to the individual	Yes	Surface level	No	Basic logic
Honest earning data	Yes	No	Sometimes	No
Actionable output, formats and posts	Yes	No	Generic tips	No
Built specifically for creators	Yes	No	Yes	No
Lead capture and private dashboard	Yes	No	No	Capture only
On brand, owned experience	Yes	No	No	Templated

— BEFORE YOU CHOOSE

Not every niche pays the same.

This is the earning potential of each space, based on ad rates, affiliate value and how much brands spend there. Higher is not better for everyone, but it is worth knowing.

Earning potential by niche

INDEX, 0 TO 100

The honest version: audience size and consistency move your income more than the niche itself. A focused creator in a "lower" space out-earns a scattered one in finance every time.

How big is the money goal at this stage?

The honesty that sets it apart. A real earning index across niches, paired with a plain note that a focused creator in a lower paying space out earns a scattered one in finance every time.

— 05 UNIQUE SELLING PROPOSITION

Why it stands alone

Xperiia / Niche Finder

PRODUCT OVERVIEW

Niche Finder is the only creator niche tool that scores you on **real signals**, tells the **truth about money**, and hands you a **usable plan**, inside an experience built to turn that moment of clarity into a booked call.

Real signal scoring

A weighted engine, not a quiz gimmick or a random result.

Honesty as a feature

The earning chart and the consistency note build trust on purpose.

A plan, not a label

Formats, platforms, and first posts, ready to act on today.

Owned end to end

Front end, database, and dashboard, all under one roof.

— 06 AUTHENTICITY AND ORIGINALITY

Built from the ground up

Niche Finder is not a re skinned quiz plugin or a template bought off a marketplace. The scoring engine, the niche library, the questions, the earning data framing, and the entire interface were written specifically for this tool, for Xperiia.

- ✓ An original scoring engine that weighs interests, strengths, format fit, and earning goals against every niche
- ✓ A hand built design system, not a stock theme
- ✓ Honest, opinionated data framing that puts the user's interest ahead of a hard sell

✓ Owned infrastructure, a private database and a custom dashboard, not a third party

 Xperiia / Niche Finder

Inside the quiz. Plain language questions with a calm, focused layout, designed so people actually reach the end.

— 08 SUMMARY

Niche Finder, by Xperiia

THE TOOL

Niche Finder turns a three minute, honest quiz into a clear content direction for a creator, and into a qualified, context rich lead for Xperiia. It is fast, mobile first, genuinely useful, and owned end to end, from the front end a visitor sees to the database and dashboard the team works from.

ABOUT XPERIIA

Xperiia Digital AI LLP is an independent, AI powered digital marketing and growth agency. It combines research backed strategy with real AI implementation across more than nineteen service verticals, from brand identity and websites to performance marketing, automation, and autonomous AI agents. Its principle is simple, deliver outcomes, not activity. Niche Finder is one expression of that, a small, sharp tool that does one thing exceptionally well.

Niche Finder is the property of Xperiia Digital AI LLP. This overview and the tool it describes, including the design, scoring engine, and all captured data, belong to Xperiia (xperiia.com). © 2026 Xperiia Digital AI LLP. All rights reserved.
